

Placemaking, Health & Wellbeing

Thursday 30th January 2020, Life Sciences Hub, Cardiff

Agenda

Objectives:

- To improve, create and plan healthy sustainable environments through shared public health and land-use planning agenda
- To highlight best practice and explore models and opportunities for sustainable co-ordinated future partnership working

Learning Outcomes:

- Knowledge and understanding of best practice in planning and public health actions at strategic and operational levels
- Awareness of current and future policy around planning and public health
- Understand the roles, priorities of and challenges facing public health and planning practitioners
- Contribute to the Public Health Wales harmonising approach to public health engagement in land use agenda

Timetable
