How are we doing in Wales?

Public Engagement Survey on Health and Wellbeing during Coronavirus Measures

December 2021

World Health Organization Collaborating Centre on Investment for Health and Wellbeing, Public Health Wales

Public Health Wales are conducting a public engagement telephone survey to ask members of the public in Wales how coronavirus and related control measures are affecting their health and wellbeing.

The survey began in April 2020 and currently operates on a monthly basis. It includes a set of routine questions with other questions changing depending on emerging issues.

Survey data are adjusted to represent the Welsh population by age, sex and deprivation*.

We thank the people of Wales for giving us their valuable time to support this work.

512 Welsh residents aged 18 years and over were interviewed in December 2021*

12%

of people said they were 'very worried' about catching coronavirus. This compares with 24% in the last survey of December 2020[#].

29%

of people said, over the past week, they had been worrying 'a lot' about losing someone they love to coronavirus. This compares with 57% in the last survey of December 2020[#].

14%

of people said, over the past week, they had been worrying 'a lot' about their mental health and wellbeing. This compares with 24% in the last survey of December 2020[#].

70%

of people reported regularly using lateral flow tests; up from 55% in the last survey round (27th September to 4th October 2021).

85%

of people agreed with the policy requiring individuals to show either an NHS COVID Pass proving they are fully vaccinated, or a negative lateral flow test, in order to go to cinemas or theatres (66% strongly agree, 19% somewhat agree); 15% disagreed with the policy (8% strongly disagree, 7% somewhat disagree).

Less likely to attend	13%
No difference	32%
Would not attend anyway	18%

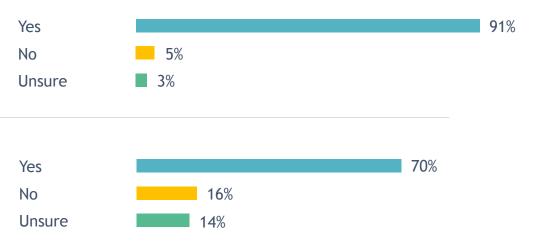

Restrictions

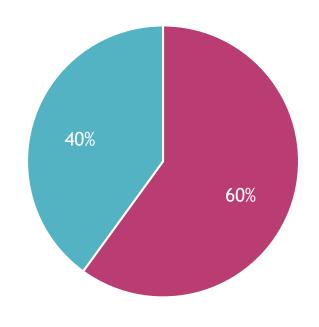

Do you support the continued requirement for face coverings in shops and other indoor public places in Wales?

Do you think we will see other restrictions such as social distancing and pub closures brought back in Wales at any point in the next 6 months?

Which of these would worry you more?

- Catching coronavirus
- Wales going back into lockdown

Protective behaviours

Now that most coronavirus restrictions have ended, which of these, if any, are you continuing to do?

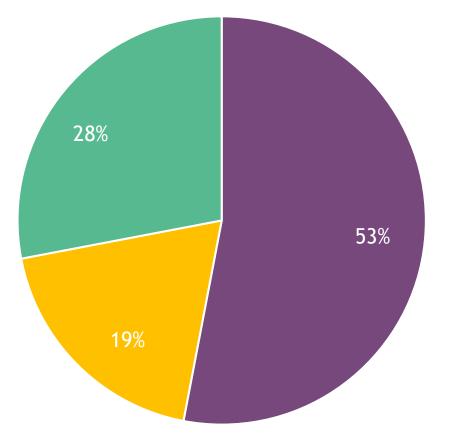

Of this list of potential policy areas, which do you think should be the first, second and third priorities over the next 12 months?

Looking forward

Thinking about the future of Wales, in your opinion which of these three issues would be most important?

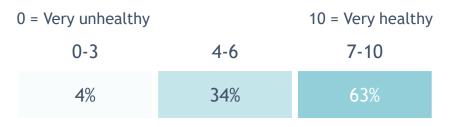

- Improving healthcare so that people can live healthier lives for longer
- Making society more equal and fairer for all people
- Protecting the planet for future generations

Compared to early last year, before the coronavirus situation, would you say your concerns about climate change have...?
